**950 Main Street, Hartford**

(Free parking available at the Morgan Street Parking  
Garage, 153 Market Street)

Today, more jobs require an education beyond high school. A college degree can provide your children with the skills necessary to succeed in today's economy.

*But your children need your help to succeed.*

What can you do to ensure that your children are receiving a good high school education? How can you help your children plan and prepare for college? Where can you find the money to help pay for a college degree? Presented in Spanish and English, this workshop will offer valuable information that can help you answer these questions and offer tips to ensure a brighter future for your child.

**Simultaneous English/Spanish translation will be available**

---

Presenters will include:

**Sarita Brown**

President, *Excelencia* in Education  
Washington, DC

**Déborah González, Ph.D.**

Coordinator, Family Resource Center
